

Heal sacred self Heal the Earth

a special 3-day workshop to help you move forward on your spiritual path

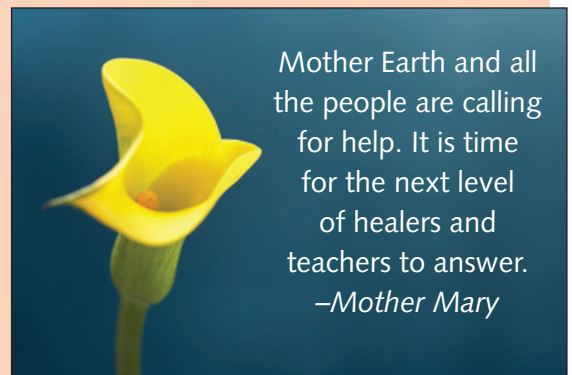

For many of us on a spiritual path it feels like a brand new opening is occurring in Creation. It also feels like it is time to go to our next level of consciousness. As our light bodies activate and the vibrational frequencies on the planet increase, we can access and in body higher and higher levels of our own Divine Consciousness. This allows for a more clear and direct connection with Divine Source. As we move forward on our path old Karma, service agreements, relationships contracts and other issues are being force to the surface to be resolved.

This is happening on an individual level (the microcosm) and on a collective soul level (the macrocosm).

Please join us for an exploration into our next level of Enlightened Service. In this class we will share:

- The Ascended Masters' Spiritual Awakening Process
- 'Mother Mary's Integration of your Highest Self meditation'
- Master Kuthumi's Collective Consciousness Global Healing Technique - individual, familial, cultural and civilization karma healing
- Archangel Raphael's Divine Light Healing Technique for Mother Earth; prevent earthquakes, clean toxic land and water, raise the vibrational frequencies in your area
- Angelic Self Meditation for Service - Surrender to the Greater Flow in Service with clarity and wisdom

Your Highest Self is being called into action in service to all now. There are collective paradigms and mind sets which have over shadowed humanities' consciousness for millennia. Earth Healers and Spiritual Healers everywhere are feeling the pull to help on a global scale now. We have the chance to learn new ways of working with group consciousness to help heal ourselves and our world. If you wish to wake up more quickly with more clarity truth and love please join us for a Sacred Event.

Mother Earth and all the people are calling for help. It is time for the next level of healers and teachers to answer.
—Mother Mary

“This is a time in history where we have the opportunity and the spiritual support to clear massive amounts of our past history. Mother Earth and all of her inhabitants are preparing to make a transition into a brand new age, “The Aquarian Age”. There will be huge shifts in individual consciousness and mass consciousness. Light workers, like yourself, have been preparing for lifetimes to help heal the old and bring in the new. Trust in yourself and your dharma. Step up in service and all will be well”. — Master Kuthumi
